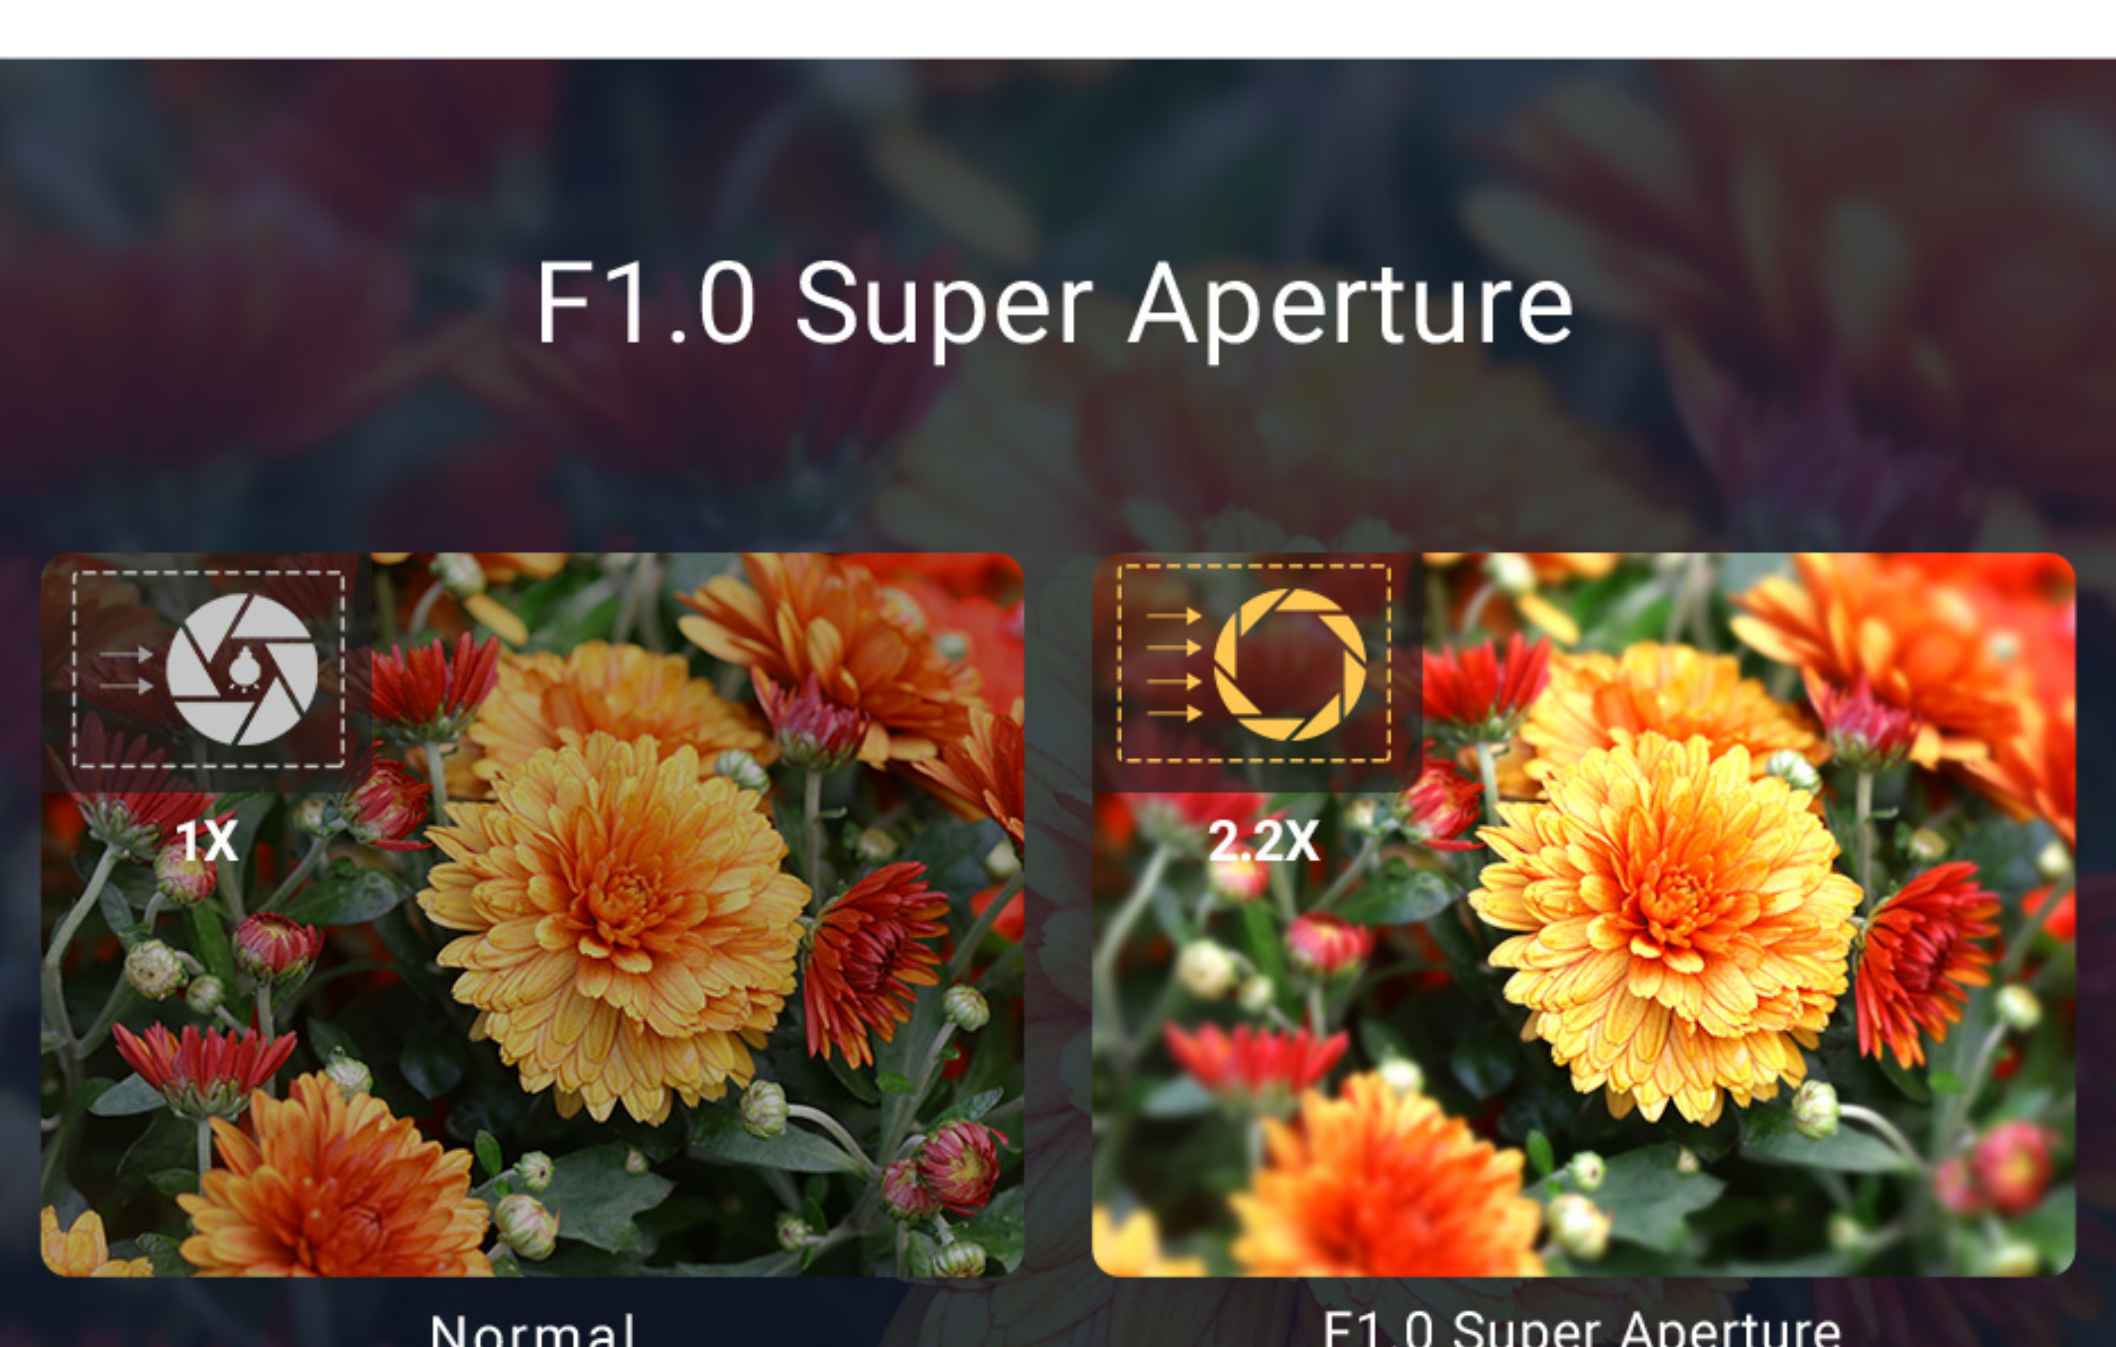
Full-color Image Performance

Combined with Built-in warm illuminator, which could deliver colorful and high resolution images in the dark or at night for the majority of monitoring scenarios, like outdoor area, parking lot, retails and so on.

F1.0 Super Aperture



Normal

F1.0 Super Aperture

Milesight AI Color$^+$ Network Camera is equipped with super large apertures (up to F1.0) that allow 2.2 times more light to pass through than normal cameras, as the larger aperture could let more light passes through to the sensor, which tremendously improving image exposure. In low-light scenarios, it works to guarantee full-time and excellent image performance.
